

MODERN JEWELLERY WITH AN EDGE

INSPIRED BY SIMPLE ARCHITECTURAL FORMS

SS 22

3D Printed Collections

I am Lorraine Hitt, Director, Designer & Creator of Elsiem Jewellery, my independent modern fashion jewellery brand based in Cambridge, UK (trading name of Elsiem Ltd).

My new 3D printed collections are heavily influenced by modern architectural & sculptural forms, designed & hand finished in-house & have already attracted much attention for their unusual edgy style - combining modern technology with traditional jewellery making & metal smith techniques.

RAPTURE COLLECTION

Tribal Warrior Statement...
Inspired by modern african sculptural forms.

RT 01 CURVED SHARD EARRINGS

These statement earrings show off the SLS 3D Printing capabilities with their elegant but bold curve. The 3D print is branded with the Elsiem logo and the brass rods catch the light because of its random brush stroke type marks made by hand, which are then lacquered for protection against tarnishing. The studs are 14K Gold Filled with a secure push on back.

RT 02 2 PEAK NECKPIECE

Strike a pose with this simple modern neckpiece. Inspired by modern architecture which protrude their roof peaks into the skyline. The 3D print has an embossed brand logo and the inset brass accent shard catches the light because of its random brush stroke type marks made by hand, which is then lacquered for protection.

The neckpiece has black & gold tone snake chain with an easy release but secure gold plated clasp. This wearable art is in 3 parts, connected by gold plated rings to allow the piece to sit comfortably on the neckline.

RT 06 SPEAR LONG CHAIN NECKLACE

Striking versatile long chain necklace, which has a black 3D printed triangle that is contrasted with brass rods and a brushed brass bail that the chain threads through.

This necklace has been CAD designed in-house and 3D printed in a great durable, lightweight material called SLS Nylon. Its then coloured in a matt black with a skin safe dye with brushed finished lacquered brass pieces and a simple but eye catching black and gold tone chain added by hand in my workshop. The chain has a brass slider clasp to enable the necklace to worn at a length & style of your choice and finished with brass chain charms.

The pendant measure 105mm long x 45mm wide x 5mm deep. The over-all maximum length of the necklace with chain is approximately 600mm drop.

These pieces have been CAD designed in-house and 3D printed in a great durable, lightweight material called SLS Nylon, with an almost leather like texture. Its then coloured in a matt black with a skin safe dye & adorned with brushed finished lacquered brass accents and 14K Gold Filled ear posts, by hand in my workshop.

VIBE COLLECTION

Stylish, sharp, edgy designs...
Inspired by modern architectural forms.

VB 07 CIRCLE NECKLACE

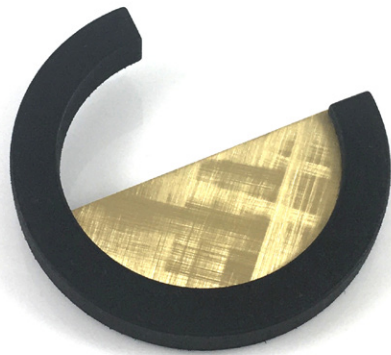

Stunning geometric contemporary statement necklace for any occasion. Finished with a lacquered brass accent half circle and a simple but eye catching black and gold tone snake chain, which has a brass slider clasp to enable the necklace to worn at a length of your choice - finished with a branded black charm tag.

VB 05 CIRCLE EARRINGS

Modern, simple and stylish, these co-ordinating hoop style earrings and brooch. Both finished with hand textured brass half circles. The earrings have 925 sterling silver ear posts with push on silicon insert backs and the brooch has a gold plated pin with safety catch.

VB 08 CIRCLE BROOCH

These pieces have been CAD designed in-house and 3D printed in a great durable, lightweight material called SLS Nylon, which has an almost leather like texture. Its then coloured in a matt black with a skin safe dye & adorned with brushed finished lacquered brass accents and sterling silver ear posts, by hand in my workshop.

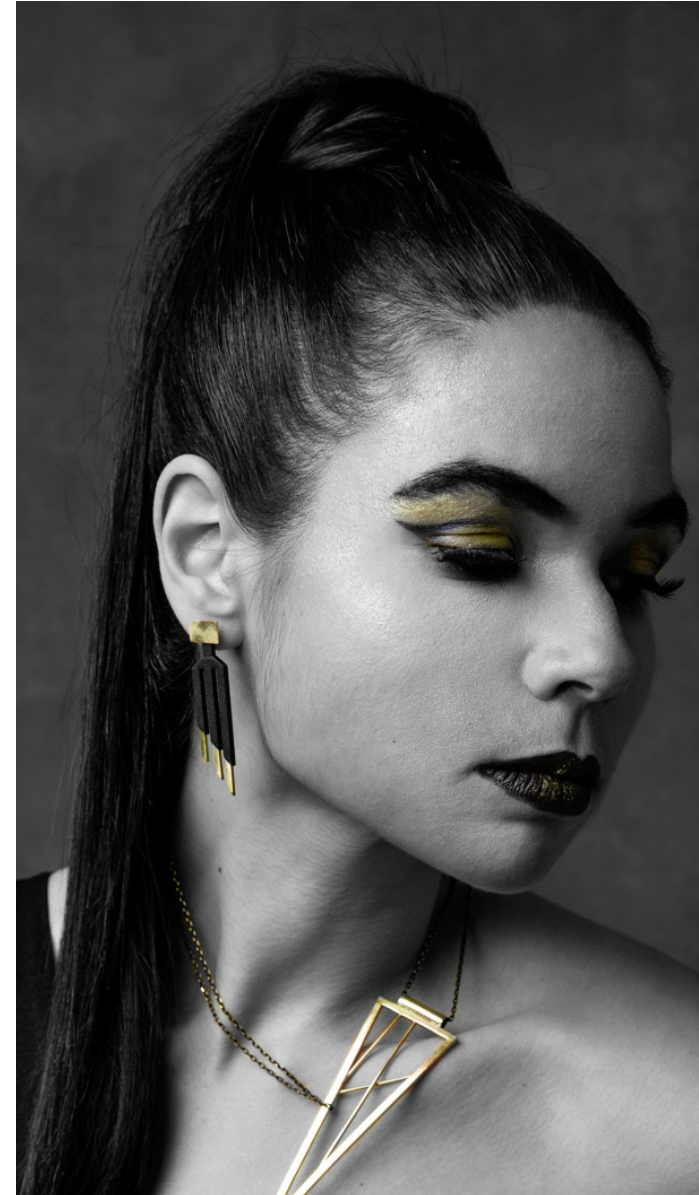

These very cool mesh earrings really celebrate the capabilities of selective laser nylon 3D printing. They are so striking in matt black & complimented with a 14K Gold Filled hand made ear hook. The 3D print has an almost leather like texture and are bendy but strong and very lightweight.

VB 24 MESH WAVE EARRINGS

Dramatic and edgy these 3D Printed Earrings are inspired by a electronic heart rate pulse! They have sterling silver ear posts and push on backs with silicone insert for extra security. The Pulse earrings are lightweight, have an almost leather like texture, are durable with an edgy look and so comfortable to wear.

VB 06 3 PRONG EARRINGS

Head turning, stylish and edgy statement earrings. Can be worn with the 3D Printed and brass prong at the back of the ear or at the front or just the studs on their own!

The metal square stud part is layered with brushed brass finish on the front and sterling silver on the back (the part that touches the ear), with push on silicon insert backs.

VB 11 PULSE EARRINGS

Edgy and stylish geometric modern statement long chain triangle pendant necklace & earrings. The brass catches the light because of its brush stroke type marks made by hand, which are then clear lacquered for tarnish protection.

The black triangles on both designs are detachable & hang freely independent of the brass triangle. The necklace has a gorgeous 2 tone black and gold tone long chain, complete with a brass slider clasp that gives you flexibility on length to suit your outfit and finished with 2 cone shaped charms. The earring studs can be worn independantly & the rear face, posts and backs are sterling silver.

VB 02 LONG CHAIN TRIANGLE PENDANT NECKLACE

VB 03 LONG TRIANGLE EARRINGS

Monolithic, modern neckpiece inspired by Brutalist Architecture. The black 3D print has an almost leather like texture and the brass catches the light because of its random brush stroke type marks made by hand, which is then lacquered for protection. The gold and black snake chain has a brass slider clasp to enable the necklace to worn at a length of your choice and finished with a branded black charm tag.

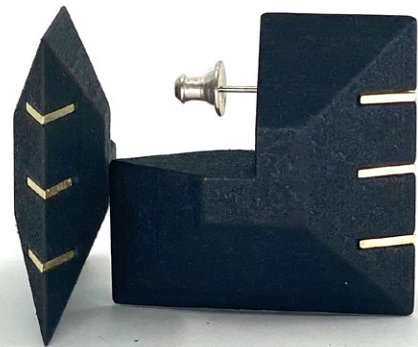

VB 13 BRUTALIST NECKPIECE

VB 15 BRUTALIST EARRINGS

These bold and modern earrings are inspired by Brutalist Architecture and will be a talking point for sure! The 3D print has an almost leather like texture and the brass catches the light because of its random brush stroke type marks made by hand, which are then lacquered for protection. The posts & backs are sterling silver, push on type with silicone inner for added security.

VB
27 CHAMFERED
EARRINGS

These bold and modern earrings are inspired by architectural chamfered fascia features. The 3D print has an almost leather like texture and the brass accents contrast beautifully. The posts are sterling silver, as are the push on type backs with silicone inner for added security.

A subtle design statement but lightweight earrings, inspired by linear lines of modern architectural fascia's and facades, finished with sterling silver ear posts and backs.

The black 3D printed element has an almost leather like texture and the brass catches the light because of its random brush stroke type marks made by hand, which is then lacquered for protection.

VB
29 FASCIA
EARRINGS

VB
28 FASCIA PENDANT
CHOKER

Stylish and bold modern pendant on a satin finished brass choker.

The 3D print has an almost leather like texture and the brass linear accents catches the light because of the random brush stroke type marks made by hand, which are then lacquered for protection.

Stylish and minimal 'Art Deco' Style stud earrings made with a 3D printed design with gold tone accents.

These earrings have been CAD designed in house and 3D printed in a great durable, lightweight material called SLS Nylon. Its then coloured in a matt black with a skin safe dye with brushed finished lacquered brass accents and sterling silver ear posts added by hand in my workshop.

VB
09 DECO
EARRINGS

VB
14 PENDULUM
NECKLACE

Stunning versatile long chain neck piece, inspired by modern Architecture.

The black 3D print has an almost leather like texture and the brass catches the light because of its random brush stroke type marks made by hand, which is then lacquered for protection.

The eye catching black and gold chain has a brass slider clasp to enable the necklace to worn at a length & style of your choice and finished with brass cone chain charms.

The pendant measure 75mm long x 65mm wide x 5mm deep. The over-all maximum length of the necklace with chain is approximately 580mm drop

VB
35 2 BALL
EARRINGS

The bold yet subtle larger 10mm diameter black ball, that hangs freely at the back of the ear lobe, is 3D printed & complimented with a 6mm 14K Gold Filled ball stud. The 3D print has an almost leather texture with a graphic relief pattern and are very lightweight.

They measure approximately 20mm drop x 10mm wide x 10mm deep

VB
34 GRILL
EARRINGS

Black 3D Printed Earrings with sterling silver ear posts and push on backs with silicone insert for extra security. Inspired by an architectural grill, these modern earrings are shaped to curve under the ear lobe and have a slight flex to them when gently squeezed. They are lightweight, tactile, durable with an edgy look and so comfortable to wear.

Earrings measure 25mm drop x 22mm wide x 20mm (excluding ear post)

VB
04 RIB
RING

VB
12 FREEHAND
RING

Modern & edgy 3D Printed Rings.
These architecturally sculpted rings are lightweight, tactile, durable and so comfortable to wear. The gap at the back of the ring gives slight flexibility with sizing.

They have been CAD designed in house by myself and 3D printed in a great durable, flexible material called SLS Nylon, which has an almost leather look texture – coloured in a matt black with a skin safe fabric dye.

Rib - Sizes Small, Medium

Freehand - Sizes Small, Medium & Large

MAKING WAVES COLLECTION

Organic & wavy ...
Inspired by modern sculptural forms.

RP
01 RIPPLE
RING

RP
02 RIPPLET
RING

3D Printed Rings. Beautifully sculpted organic wavy shaped ring, lightweight, tactile, durable with an edgy look and so comfortable to wear. The Ripplet ring is half the size of the Ripple Ring.

They are CAD designed in house by myself and 3D printed in a great durable, flexible material called SLS Nylon, which has an almost leather look texture – coloured in a matt black with a skin safe fabric dye.
Sizes Small, Medium & Large.

HEBO COLLECTION

HB 02 HEBO EARRINGS

The Hebo range has been inspired by my love of the work of the infamous Barbara Hepworth & Naum Gabo.

Both the ring & earrings have been CAD designed in house and 3D printed in a great durable, lightweight material with an almost leather look texture called SLS Nylon. Its then coloured in matt black with a skin safe dye, then a brushed finished brass accent piece, with a clear lacquer coating to prevent tarnishing and handcrafted sterling silver posts are added by hand in my workshop. Sizes Small & Medium

HB 03 HEBO RING
